

Board of Directors' report

The Board of Directors and the Chief Executive Officer ("CEO") of Bong AB (publ.), corporate ID no. 556034-1579, registered headquarters in Kristianstad, Sweden, hereby submit their annual report for the financial year 1 January 2015 – 31 December 2015 for the Parent Company and the Group ("Bong", "the Group" or "the Company").

Bong is one of the leading providers of specialty packaging and envelope products in Europe and offers solutions for distribution and packaging of information, advertising materials and lightweight goods. Important growth areas in the Group are packaging within retail and e-commerce and the envelope market within Eastern Europe. The Group has annual sales of approximately SEK 2.3 billion and about 1,600 employees in 16 countries. Bong is a public limited company and the share is listed on Nasdaq Stockholm (Small Cap).

MARKETS

During the fourth quarter of 2015, the European envelope market volume decreased by approximately 5 per cent compared to the same period previous year according to FEPE statistics. For the full year 2015 the market volumes declined by approximately 8 per cent compared to 2014. According to FEPE the south eastern European countries are more stable and do not show the same level of decline. Bongs assessment is that the decline in the market will continue in the same pace during 2016. Since the raw material prices have increased, due to decreased capacity, it has been necessary for Bong to increase sales prices to the market. Competitors on the European market are also increasing prices in order to cope with the raw material increases.

The restructuring process and the consolidation of the industry have been ongoing during 2015, but there is still a large overcapacity in the market. Deutsche Papier has applied for administration process and the UK government has sold its remaining stake in Royal Mail. The Mail Solution Group has bought the plant and most of the machinery from Dobson and Crowther in UK, who went into administration in June. It is Bongs assessment that the consolidation and restructuring will continue during 2016.

The direct marketing segment, representing about one third of Bong sales, shows a strong recovery. The transactional segment, also representing about one third of Bong sales, still decreases due to the digitalisation.

The special packaging market, where Bong is present, is still growing and is a large and fragmented market.

SALES AND EARNINGS

Bong posted consolidated sales in the period of SEK 2,345 million (2,533). Exchange rate fluctuations had a positive impact on sales of SEK 76 million compared with 2014. The main reason for the drop in sales is the continued downturn in the envelope market, which resulted in lower volumes and pricing pressures which had a negative impact on gross earnings.

Bong's total packaging sales amounted to SEK 398 million (415). Currency fluctuations had a positive impact on packaging sales of SEK 13 million compared with the corresponding period in 2014.

Operating profit was SEK -5 million (-123) including costs for restructuring program, mainly related to the Nordic countries and France, of SEK -20 million (-105). Paper suppliers have raised their prices in several steps since the second quarter in 2015, which has had a temporarily negative impact on Bong's gross margin. Bong has so far been successful to compensate for increased paper prices after some delay. The lower sales volumes and the price pressure in the market has been more than offset by the lower cost base in the company resulting in improved result versus last year.

Net financial items for the period amounted to SEK -55 million (-55). Earnings before tax were SEK -60 million (-178) and reported earnings after tax were SEK -64 million (-150).

CASH FLOW

Cash flow after investing activities for the period was SEK 75 million (94). Payments for the ongoing restructuring program had a negative impact on cash flow for the year of SEK -79 million (-38).

FINANCIAL POSITION

Cash and cash equivalents at 31 December 2015 amounted to SEK 244 million (SEK 97 million at 31 December 2014), whereof SEK 180 million was held in an escrow account to be used to repay the banks according to the pending agreement which was decided at the extraordinary general meeting on January 25th 2016. The Group had unutilised credit facilities of SEK 28 million on the same date. Total available cash and cash equivalents thus amounted to SEK 92 million (158 million at 31 December 2014), net of the escrow account.

Consolidated equity at the end of December 2015 was SEK 317 million (377). Translation of the net asset value of foreign subsidiaries to Swedish krona and changes in the fair value of pension debt and derivative instruments decreased consolidated equity by SEK 3 million. The interest-bearing net loan debt increased during the period by SEK 47 million to SEK 837 million (790).

CAPITAL EXPENDITURE

Investing activities and acquisitions during the period had a net impact on cash flow of SEK 74 million (-3). The net investments include an investment in production equipment and a business system for the Group. Also included were the sale of machinery, other production equipment and real estate, which had a positive impact on cash flow of SEK 102 million.

EMPLOYEES

The average number of employees during the period was 1,763 (1,873). The Group had 1,653 (1,833) employees at the end of December 2015. Bong is intensively working on improving productivity and adjusting staff to meet current demand and the reduction is the result of the implemented restructuring measures. Many employees are currently under notice period. When implemented measures are fully in place Bong will have around 1,600 employees.

EVENTS AFTER THE END OF THE FINANCIAL YEAR

On the 29th January 2016 Bong announced that the company had completed the acquisition of its lending bank's claims since all prerequisites for the deal were fulfilled. Below is a summary of the various steps in the transaction which significantly reduces and changes the nature of Bong's indebtedness and the effects thereof.

ACQUISITION OF THE BANK FACILITIES

Bong has acquired the banks' claims on the company against a cash consideration of SEK 195 million. The banks have also received 27,272,727 shares in Bong through a set-off issue against part of the claims.

The banks have transferred 23,148,148 shares to the investors of the bonds that were issued on 21 December 2015.

The banks are also entitled to subscribe for a total of 10 million shares in Bong through a directed issue at a subscription price of SEK 1.00 per share. The subscription may be made up until 28 April 2016.

CONVERTIBLE BONDS

All convertible bonds in series 2013/2018 have been converted at a conversion price of SEK 2.75 per share, which provides the holders of convertible bonds with a total of 27,272,727 shares in Bong.

The holders of convertible bonds are also entitled to subscribe for a total of 9,999,975 shares in Bong through a directed issue at a subscription price of SEK 1.00 per share. The subscription may be made up until 28 April 2016.

BOND ISSUE

Senior secured bonds in an amount of SEK 200 million were issued by the company on 21 December 2015. The bonds have a three year tenor and a fixed annual interest rate of 10.0 per cent. Each bond has a nominal amount of SEK 250,000 and the bonds are intended to be listed on Nasdaq

Stockholm within six months from issuance. Bong has undertaken not to declare any dividends during the life of the bonds.

In accordance with the terms and conditions for the bonds, the bond investors have received 50,000 subscription warrants and 28,935 shares in Bong per bond. In total, 40 million subscription warrants (with a tenor of three years, which each entitles to subscribe for one share in Bong at a subscription price of SEK 1.15 per share) have been issued. The proceeds from the bond issue have been used to purchase the banks' claims.

EFFECTS OF THE TRANSACTION

The completion of the transaction has resulted in an increase of equity and a reduction of interest-bearing debt by approximately SEK 500 million, whereby a reasonable balance between indebtedness and operating profit is achieved. An additional positive effect of the measures is that the interest costs are decreased with approximately SEK 10 million per year as a result of the lower debt burden. If the directed share issues are subscribed for in full and full subscription of shares through exercise of the issued subscription warrants is made, an amount of approximately SEK 70 million will be added to the equity of the Company.

ENVIRONMENT

Bong's environmental work is aimed at minimising the environmental effects of both end products and processes. At present Bong is working actively to improve production methods so that polluting emissions are minimised, to eco-label as large a portion of the range as possible, and to boost knowledge and awareness of environmental issues among its employees. Besides imposing demands on its own operations, Bong is also trying to influence suppliers and customers to design their products so that ecocycle thinking and conservation of natural resources are prioritised.

In order to further rationalise environmental efforts, the Company is working according to a plan for environmental certification, with the objective that all plants in the Group will be ISO 14001 certified. The plants in Solingen in Germany and Kristianstad in Sweden, Tönsberg in Norway, as well as Milton Keynes and Derby in the UK, Sandweiler in Luxembourg, Evreux and Angoulême in France and Estonia are certified.

Environmental certification of the products is an important aspect, and labelling with the Nordic Ecolabel (the Swan) is therefore a natural part of Bong's Scandinavian range.

The plants in Kristianstad, Nybro (Sweden), Erlangen (Germany) Solingen and Milton Keynes are FSC® certified. FSC® is an organisation that promotes environmentally appropriate, socially beneficial and economically viable management of the world's forests. The paper and production process in the envelopes series FSC® by Bong is FSC® certified.

RESEARCH AND DEVELOPMENT

The Group conducts some research and development activities. In addition, active efforts are pursued to meet customer needs for different envelopes and packaging solutions.

PARENT COMPANY

The Parent Company's business extends to management of operating subsidiaries and certain Group management functions. Sales were SEK 0.9 million (0.7) and earnings before tax were SEK -72 million (-73). Investments for the period amounted to SEK 0 million (0). Credits granted but not utilised amounted to SEK 28 million (61).

BOARD'S PROPOSED 2016 GUIDELINES FOR REMUNERATION TO SENIOR EXECUTIVES

The Board of Directors of Bong AB (publ) proposes that the 2016 AGM resolve on remuneration to the CEO and other senior executives as follows: "Senior executives" here refers to executives included in the management group, which currently consists of the Company's CEO and Business Area Manager Nordic Region, Chief Financial Officer (CFO), Business Area Manager Central Europe, Business Area Manager UK and Business Area Manager France and Spain.

Remuneration shall consist of fixed salary, variable remuneration, other benefits and pension. Total compensation must be at market rates and competitive to ensure that the Group can attract and retain competent senior management. In addition to the above variable compensation, from time to time a long-term incentive scheme may be approved.

The variable component of the salary shall have a predetermined ceiling, the basic principle being that the variable salary portion can amount to no more than 60 per cent of the fixed annual salary. The variable component is based on a vesting period of one year. The goals for senior executives are established by the Board of Directors.

Pension benefits shall primarily be defined-contribution, but also occur for legal reasons as defined-benefit, although not at the Group Management level. Variable remuneration is not pensionable. Group Management is entitled to pensions under the ITP plan or the equivalent. The retirement age is 65 years. In addition to the ITP plan, some members of Group Management are also entitled to an increased occupational pension premium of up to 30 per cent of their fixed salary.

Group Management's employment contracts include provisions governing remuneration and termination of employment. According to these agreements, employment can ordinarily terminate at the request of the employee with a period of notice of 4-12 months and at the Company's request with a period of notice of 6-18 months. In the event of termination by the Company, the period of notice and the period during which compensation is payable shall not together exceed 24 months.

Decisions regarding remuneration of the CEO and other senior executives are prepared by the Remuneration Committee and finalised by the Board based on the recommendation of the Remuneration Committee.

These guidelines apply to those persons who are included in the Group Management during the period the guidelines are in force. The guidelines apply to the employment contracts entered into after the AGM's resolution, and to any changes in existing contracts.

The Board of Directors is entitled to disregard the above guidelines if it finds that special reasons exist to justify this in a particular case.

SUPPLEMENTARY INFORMATION TO THE BOARD OF DIRECTOR'S PROPOSAL

The cost of Group Management's variable remuneration at maximum outcome, which assumes that all bonus-related goals are achieved, can be calculated to be about SEK 5 million (excluding social security contributions). The calculation is based on the current composition of the Group Management.

OWNERSHIP

Bong's principal owners, with holdings of more than ten per cent of the votes and capital, are Holdham S.A., with 33.7 per cent of the votes and capital. Nordea AB and FR & R Invest AB each own about 7.4 per cent and

Paulsson Advisory AB with about 5.8 per cent of the votes and capital in the Company. The total number of ordinary shares was 156,659,604 on 31 December 2015. All shares carry the same rights.

There are no restrictions on the transferability of the shares due to legal regulations or rules in the Articles of Association. Bong is not aware of any agreements between direct shareholders in Bong that entail restrictions in the right to transfer shares.

In the event of a public offer, no agreements are triggered that would have a material effect on Bong's earnings or financial position.

APPOINTMENT OF BOARD AND AMENDMENT OF ARTICLES

The Company's Board of Directors shall consist of a minimum of four and a maximum of nine members. The members are elected at a General Meeting of Shareholders for the period until the end of the first Annual General Meeting (AGM) held after appointment of the member. The Articles of Association can be amended at the AGM or a General Meeting of Shareholders.

RISKS AND OPPORTUNITIES

Like all business operations, Bong's operations are associated with risks and opportunities. The specific factors judged to have the greatest impact on Bong's operations are presented below.

OPERATING RISKS AND OPPORTUNITIES

MARKET DEVELOPMENT

Historically, the envelope market has followed the general economic trend. In Eastern Europe a generally growing economy still drives envelope consumption. In Western Europe the connection between general economic growth and envelope consumption is no longer as strong as it has been, given IT developments and associated digitisation.

Demand for envelopes for direct mail varies with the economy. With the aid of more sophisticated databases with personal information a market is being created for highly sophisticated envelopes intended for personally addressed direct mail. Large promotional mailings in envelopes are declining in frequency and scope over time.

Administrative mailings as a whole has already declined with respect to account statements, order confirmations, etc. as part of digitisation and internet penetration. Other parts of transaction-related mailings, such as invoices, still hold their own in the competition with the newer technology.

The strong demand for packaging in both e-commerce and traditional retail creates great opportunities for Bong to create growth in their specialty packaging line. Packaging customers also present an opportunity for cross-selling of envelopes. Over time, growth in the packaging area is expected to compensate for the decline in envelopes. Bong is closely monitoring developments and is very active in specialty packaging to ensure sustained growth.

POSTAGE AND CHARGES

Changes in postage and charges can lead to changes in letter and mail volumes. Postage increases have a negative impact on volumes, while postage decreases have a positive impact. Postage is usually based on weight or size. Several large markets are using weight-based postage. A transition from weight to size-based postage could lead to changes in Bong's product mix and cause a shift towards small envelope sizes.

INDUSTRY STRUCTURE AND PRICE COMPETITION

The European envelope market has undergone accelerating consolidation since 2011 as a result of the financial crisis. The three largest envelope companies represent about 60 per cent of the total market. However, some of the major markets are still fairly fragmented. Bong believes that overcapacity in the industry has fallen slightly.

PAPER PRICES

Uncoated fine paper is the single most important input material for Bong. The cost of fine paper is about 50 per cent of the total cost. Under normal conditions, Bong can compensate for price increases, with some time lag.

DEPENDENCE ON INDIVIDUAL SUPPLIERS AND/OR CUSTOMERS

Uncoated fine paper is Bong's most important input material and is mainly purchased from three major suppliers. Delivery disruptions from any of the three suppliers could affect Bong negatively in the short term. In a longer term perspective, Bong does not have any suppliers that are critical to its operations.

The Group's dependence on individual customers is limited. The biggest customer accounts for four per cent of annual sales, and the 25 biggest customers account for 36 per cent of total sales.

CAPITAL NEEDS AND INVESTMENTS

All companies in the European envelope industry have roughly the same production equipment. The age of the machinery is of limited importance for production efficiency, but newer machines generally have higher capacity. Machine wear is low, and production control and automation are crucial for cost-effective production. In general, the long life of the machines inhibits scrapping and consolidation in the industry.

On the other hand, the low investment needs lead to very good cash-generating capacity. At year-end the Group's machinery consisted of about 150 envelope machines and 100 overprinting presses. The investment need in existing structure is judged to be limited during the next few years and clearly less than the Group's depreciation costs.

FINANCIAL RISK MANAGEMENT

Information regarding goals and applied principles for financial risk management, use of financial instruments and exposure to currency risks, interest rate risks and liquidity risks is provided in Note 1.

DISPUTES

Bong has no on-going or pending material legal disputes.

ENVIRONMENT

Bong complies with the environmental laws and rules that apply in each country to this type of industrial production. By means of measurements and regular inspections, Bong has ensured that emission limits are not exceeded. There are no indications that the laws in this area will change in such a way that Bong would be affected to any significant extent or that Bong would be unable to comply with these requirements in the future.

SENSITIVITY ANALYSIS

Important factors that affect Bong's earnings and financial position are the volume trend for envelope sales, the price trend for envelopes, paper prices, payroll costs, currency rate changes and interest rate levels. The table below shows how Bong's 2015 earnings would have been affected

by a change in a number of business-critical parameters. Reported effects should be regarded merely as an indication of how profit after financial items would have been affected by an isolated change in the particular parameter.

Parameter	Change	Impact on earnings after financial items, SEK million
Price	+/- 1%	23 +/-
Volume	+/- 1%	11 +/-
Paper prices	+/- 1%	12 +/-
Payroll costs	+/- 1%	7 +/-
Interest level borrowing	+/- 1%-point	5 +/-

CORPORATE GOVERNANCE REPORT

Effective and clear corporate governance helps secure the confidence of Bong's stakeholder groups while also increasing focus on business benefits and shareholder value in the Company. Bong's Board of Directors and management strive, by means of great transparency, to make it easier for the individual shareholder to follow the Company's decision pathways and to clarify where in the organisation responsibilities and powers lie.

CORPORATE GOVERNANCE PRINCIPLES

Corporate governance within Bong AB (Bong) is based on applicable legislation, the regulatory framework for Nasdaq Stockholm and various internal guidelines. The most recent version of the Swedish Code of Corporate Governance ("the Code") was published in November 2015 and covers all listed companies as of 1 November 2015.

Bong applies the Code, and in those cases the Company has chosen to disregard the rules of the Code, a reason is given in the appropriate section of the Corporate Governance Report.

Bong is a Swedish public limited liability company whose shares are traded on Nasdaq Stockholm in the Small Cap segment. Bong has around 1,700 shareholders.

Responsibility for management and control of Bong is divided between the shareholders at the General Meeting of Shareholders, the Board of Directors, its elected committees and the CEO, according to the Swedish Companies Act, other acts and ordinances, the Code and other applicable rules governing listed companies, the Articles of Association and the Board's internal policy instruments. The purpose of corporate governance is to define a clear division of responsibilities and roles between owners, Board of Directors, executive management and appointed control bodies.

CORPORATE GOVERNANCE REPORT 2015

OWNER INFLUENCE

Governance of Bong is exercised via the General Meeting of Shareholders, the Board of Directors and the CEO. The highest decision-making body in Bong is the General Meeting of Shareholders.

The Annual General Meeting (AGM) elects the Company's Board of Directors. The duties of the AGM also include adopting the Company's financial statements, deciding how to distribute the earnings, and deciding whether or not to discharge the members of the Board and the CEO from liability. The AGM also elects Bong's auditors.

Twentynine shareholders, representing 60 per cent of the total number of shares and votes in the Company, participated in Bong's Annual General Meeting on 20 May 2015 in Kristianstad. All Board members and the Company's auditors were present or represented at the AGM. Bong's principal shareholders can be seen under the heading Shareholders, page 11.

BOARD OF DIRECTORS

Bong's Board of Directors decides on the Group's overall strategy and on the acquisition and disposal of business entities and real estate.

The work of the Board is regulated, e.g. by the Swedish Companies Act, the Articles of Association and the rules of procedure adopted by the Board for its work. According to the Articles of Association, the Board of Directors shall consist of at least four and at most nine members.

From the time of the statutory meeting of the Board of Directors on 20 May 2015 the Board consisted of five AGM-elected members, since Ulrika Eriksson resigned and was replaced with Helena Persson, without deputies and two employee members with two deputies. The chairman of the board is Eric Joan. The other Members of the Board are Mikael Ekdahl (vice chairman), Stéphane Hamelin and Christian Paulsson.

The Board of Directors has appointed from among their number two committees: the Audit Committee and Remuneration Committee.

REMUNERATION OF THE BOARD

Eric Joan received a fee of SEK 300,000 (90,000) as Chairman of the Board of Directors. The amount corresponds to the fee stipulated by the AGM. No other fees were paid. There is no agreement on pension, severance pay or other benefits. Information about remuneration of the Board of Directors, as resolved by the 2015 Annual General Meeting, can be found in Note 4.

BOARD MEMBERS ELECTED BY THE AGM

Eric Joan (b. 1964)

Chairman of the Board since 2014 and board member since 2010.

Education: Graduate from École Polytechnique Universitaire de Lille and Harvard Business School.

Other appointments/positions: CEO and President of Hamelin Group.

Terminated board appointments/partnerships over the past five years: - Holding in Bong: -.

Peter Harrysson (b. 1958)

Employee representative on the Board of Bong AB since 1997.

Representative of Grafiska Personalklubben.

Education and previous experience: Factory worker at Bong Sverige AB.

Other directorships/positions: Member of the Board of Nybro

Bostadsaktiebolag.

Terminated board appointments/partnerships over the past five years: –

Holding in Bong: 0

Christer Muth (b. 1954)

Employee representative on the Board of Bong AB since 2008. Representative of PTK.

Education and previous experience: Sales and customer service, Bong Sverige AB.

Other positions/directorships:–

Terminated board appointments/partnerships over the past five years: –

Holding in Bong: 0

RULES OF PROCEDURE FOR THE BOARD

The Board of Directors has adopted written rules of procedure and issued written instructions concerning the division of responsibilities between the Board and the CEO. There are instructions regarding information to be furnished regularly to the Board of Directors. During financial year 2015, the Board of Directors held seventeen meetings in addition to the statutory meeting. The CEO provided board members with information at all regular meetings about the financial position of the Group and significant events in the Company's operations. The Board meets at least four times a year in addition to the statutory meeting. One of the meetings can be held at one of the Group's units and be combined with an in-depth review of this unit.

Key issues that the Board of Directors addressed in 2015 included:

- 18 February Year-end report and progress report from auditors
- 2 April Financing
- 20 May Q1 2015 interim report and statutory board meeting after the 2015 AGM
- 15 July Q2 2015 interim report
- 16 September Visit to subsidiary
- 28 September Financing
- 2 October Financing
- 26 October Financing
- 28 October Financing
- 29 October Financing
- 11 November Financing
- 18 November Q3 2015 interim report
- 30 November Financing
- 2 December Financing
- 4 December Financing
- 6 December Financing
- 10 December Financing
- 12 December Budget 2016
- 20 December Financing

INDEPENDENT MEMBERS AND ATTENDANCE AT BOARD MEETINGS

Bong complies with the Stockholm Stock Exchange's listing agreement and the Code with regard to requirements for independent Board members.

COMPOSITION OF THE BOARD OF DIRECTORS AND NUMBER OF FORMAL MEETINGS IN 2015

	Independent of company ¹	Independent of major shareholders ¹	Attendance at board meetings
Eric Joan	Yes	No	16
Stéphane Hamelin	No	No	16
Mikael Ekdahl	Yes	Yes	17
Christian Paulsson	Yes	No	15
Helena Persson, from May 2015	Yes	Yes	15

¹ The assessment of the independence of the Board members has been made in accordance with Nasdaq Stockholm's Rules for Issuers and criteria of independence.

RESTRICTIONS ON VOTING RIGHTS

The Company's articles of association do not contain any limitations in respect to how many votes each shareholder may cast at an AGM.

NOMINATION COMMITTEE

The Annual General Meeting appoints a Nomination Committee whose task is to submit proposals to the AGM in consultation with the principal owners on the composition of the Board of Directors.

The Nomination Committee elected by the 2015 AGM consisted of three members: Stéphane Hamelin (Holdham S.A.), Ulf Hedlundh (Svolder AB) and Christian Paulsson (Paulsson Advisory AB). Stéphane Hamelin was appointed Chairman of the Nomination Committee.

Since Bong's principal shareholders (Holdham S.A. and Paulsson Advisory AB), represented about 45 per cent of votes, it was only natural that they were represented on the Nomination Committee. Furthermore, said shareholders considered it to be natural that a representative from one of the largest shareholders in terms of votes should serve as Chairman of the Nomination Committee. The Nomination Committee has dealt with the issues that follow from the Code. The Nomination Committee has had two formal meetings with regular contacts in between.

REMUNERATION COMMITTEE

The Board of Directors has appointed a Remuneration Committee consisting of Christian Paulsson, chairman, Mikael Ekdahl and Stéphane Hamelin.

The Committee's task is to review and give the Board recommendations regarding the principles for remuneration, including performance-based remuneration of the Company's senior executives. Issues concerning the CEO's terms of employment, remuneration and benefits are prepared by the Remuneration Committee and decided by the Board of Directors. The CEO's salary consists of a fixed portion and a variable portion. The variable component, which is re-examined annually, is dependent on the achievement of results for the Company and the CEO.

The Remuneration Committee met on one occasion in 2015, at which all members participated.

AUDIT COMMITTEE

The Board of Directors has appointed an Audit Committee consisting of Mikael Ekdahl, chairman, and Christian Paulsson. Bong deviates from the Code by only having two board members in the Audit Committee. Since Christian Paulsson is one of Bong's principal shareholders it is only natural that he is represented on the Audit Committee along with an additional independent board member.

Since other members of the Board cover other activities within the Group, this has been deemed sufficient. The Audit Committee shall oversee that the Company's accounts are prepared with full integrity for the protection of the interests of shareholders and other parties. The Audit Committee met three times in 2015, at which all members participated.

EXTERNAL AUDITORS

Bong's auditors are elected by the AGM for a term of one year. The 2015 AGM elected accounting firm PricewaterhouseCoopers AB, with authorised auditor Mathias Carlsson, who was replaced during the period by Lars Nilsson, as principal auditor, and authorised auditor Christer Olausson as co-auditor, for a one-year mandate period.

The auditors review the Board's and the CEO's administration of the Company and the quality of the Company's audit documents. The auditors report the results of their review to the shareholders via the Audit Report, which is presented at the AGM. In addition, the auditors submit detailed accounts to the Board of Directors at least once a year and report to the Audit Committee at each of its meetings.

THE CEO AND GROUP MANAGEMENT

The CEO leads the day-to-day management of the Company in accordance with the Board's guidelines and directions. The CEO is responsible for keeping the Board of Directors informed and ensuring that the Board has all the factual material needed to make informed decisions. The CEO is a member of the Board of Directors. The CEO also keeps the Chairman of the Board informed, by continuous dialogue, of the development of the Group. The CEO and others in the Group Management hold formal meetings about every quarter, as well as a number of informal meetings, to go through the results of the previous month and discuss strategy questions.

In 2015, Bong's Group Management consisted of five persons, including one woman. The Group consists of the Parent Company Bong AB and a number of subsidiaries, as reported in Note 19. Reporting by subsidiaries takes place on a monthly basis.

The boards of the subsidiaries mainly consist of members of Bong's corporate management.

REMUNERATION FOR GROUP MANAGEMENT

The 2015 AGM decided that the Group Management's salaries should consist of a fixed basic salary plus variable performance-based remuneration. The variable remuneration can be paid for performance that exceeds what is normally expected of a member of the Group Management after an evaluation has been made of individual performances and the Company's reported profit.

The extent to which pre-established goals for the Company and the senior executive have been achieved is taken into account when establishing the variable remuneration. The total remuneration for members of the Group Management should be at a competitive level.

INTERNAL CONTROL

The Board of Directors is responsible for ensuring that there is a good system for internal control and risk management.

Responsibility for creating good conditions for working with these matters is delegated to the CEO. Both Group Management and managers at different levels in the Company bear this responsibility in their respective areas. Powers and responsibilities are defined in policies, guidelines and instructions for authorisation rights.

THE BOARD'S STATEMENT REGARDING INTERNAL CONTROL

According to the Code, the Board of Directors shall annually submit a description of the Company's system for internal control and risk management regarding financial reporting. This report is prepared in accordance with the Code.

ORGANISATION FOR INTERNAL CONTROL

Internal control regarding financial reporting is a process designed to provide reasonable assurance regarding the reliability of the external and financial reporting and whether the financial statements are prepared in accordance

with generally accepted accounting principles, applicable acts and ordinances and other requirements for listed companies. The internal control activities are included in Bong's administrative procedures. Internal control regarding financial reporting in Bong can be described in accordance with the following framework.

CONTROL ENVIRONMENT

Internal control in Bong is based on a control environment that includes values and management culture, follow-up, a clear and transparent organisational structure, division of duties, the duality principle, quality and efficiency of internal communications.

The basis of the internal control regarding financial reporting consists of a control environment with organisation, decision-making channels, powers and responsibilities that have been documented and communicated in governing documents, such as internal policies, guidelines and instructions, as well as job descriptions for controlling functions. Examples are rules of procedure for the Board of Directors and CEO, instructions for financial reporting, information policy and authorisation instructions.

CONTROL ACTIVITIES

The control activities include both general and more detailed controls intended to prevent, detect and correct errors and non-conformance. The control activities are devised and documented at the corporate and departmental level. The internal regulatory framework with policies, guidelines and instructions comprises the most important tool for furnishing information and instructions for the purpose of securing the financial reporting. In addition, a standardised reporting package is used by all subsidiaries in order to ensure consistent application of Bong's principles and coordinated financial reporting.

Bong also has a self-assessment process relating to internal controls.

RISK ASSESSMENT

Bong continuously evaluates the risks surrounding reporting that may arise. Furthermore, the Board of Directors is responsible for ensuring compliance with insider laws and standards for furnishing information. The overall financial risks are defined and taken into consideration in establishing the Group's financial goals.

The Group has an established, but changeable, system for management of business risks that is integrated in the Group's control process for business planning and performance. In addition, seminars are routinely held on business risks and risk assessment within the Group. There are procedures for ensuring that significant risks and control deficiencies are, when necessary, detected by the Group Management and the Board of Directors on a periodic basis.

INFORMATION AND COMMUNICATIONS

In order to ensure effective and correct information, both internally and externally, good communications are required. Within the Group there are guidelines for ensuring that relevant and essential information is communicated within the Group, within each unit and between the management and the Board of Directors. Policies, manuals and work descriptions are available on the Company's intranet and/or in printed form. In order to ensure that external information is correct and complete, Bong applies an information policy adopted by the Board of Directors.

FOLLOW-UP

The CEO is responsible for ensuring that internal control is organised and followed up in accordance with the guidelines established by the Board of Directors. Financial governance and control are exercised by the Group accounting function. The financial reporting is analysed monthly at a detailed level. The Board of Directors has regular access to financial reports, and the Company's financial situation is dealt with at every Board meeting. Every quarterly report is gone through by the Board of Directors. The CEO is responsible for ensuring that independent objective reviews are performed for the purpose of systematically evaluating and proposing improvements in the Group's processes for governance, internal control and risk management. In view of this, and how the financial reporting has otherwise been organised, the Board of Directors finds no need for a special internal auditing function.

PROPOSED DISTRIBUTION OF EARNINGS

The Board of Directors proposes that the earnings available for distribution, SEK 591,715,701, be carried forward. Note 37.

BOARD'S OPINION CONCERNING PROPOSED DIVIDEND

Bong's current priority is to reduce debt and improve profitability. Therefore, the Board proposes that no dividend be paid for 2015. No dividend was paid for 2014.
