

We expect the envelope market to continue to decrease in 2015. The market conditions remain challenging and the recent tensions on paper prices and exchange rate turbulences makes it necessary for Bong to pass on price increases to the market. Within a few months we will have finalised our ambitious restructuring program in order to increase our efficiency and to provide our customers with the service level they expect from us. We see many growth opportunities within light packaging and in Eastern Europe. Despite tough market conditions and substantial cash outflow for non-recurring items Bong showed a positive cash flow and a positive adjusted EBIT for the first quarter 2015, says Bong's CEO Stéphane Hamelin. ***

This is the Bong Group

Bong is one of the leading providers of specialty packaging and envelope products in Europe and offers solutions for distribution and packaging of information, advertising materials and lightweight goods. Important growth areas in the Group are packaging within retail and e-commerce and the envelope market within Eastern Europe. The Group has annual sales of approximately SEK 2.5 billion and about 1,800 employees in 16 countries.

Bong has strong market positions in most of the important markets in Europe and the Group sees interesting possibilities for continued expansion and development. Bong is a public limited company and its share are listed on NASDAQ Stockholm (Small Cap).

Market and industry

In 2014 the European envelope market decreased by about 5 per cent. Bong's assessment is that the market continued to decrease in the same pace during the first quarter of 2015. The restructuring process and the consolidation of the industry will continue. Many small companies are closing operations and the bigger companies are consolidating and reducing production capacity. The special packaging market, where Bong is present, is still growing and is much bigger and much more fragmented.

Sales and profit

January - March 2015

Bong posted consolidated sales in the first quarter of SEK 639 million (662). Exchange rate fluctuations had a positive impact on sales of SEK 37 million compared with 2014. The main reason for the drop in sales is the continued downturn in the envelope market, which resulted in both lower volumes and pricing pressures and had a negative impact on Bong's gross earnings.

Bong's total Packaging sales amounted to SEK 102 million (102). Currency fluctuations had a positive impact on Packaging sales of SEK 6 million compared with the corresponding period in 2014. Operating profit was SEK -2 million (-44) including costs for restructuring program, mainly related to the Nordic countries, of SEK -16 million (-51).

Net financial items for the period amounted to SEK -14 million (-16). Earnings before tax were SEK -16 million (-59) and reported earnings after tax were SEK -20 million (-45).

Cash flow and investments

Mainly due to improved result and positive net investments the cash flow after investing activities improved to SEK 4 million (-7). The cash flow was negatively affected by payments for the ongoing restructuring program of SEK -16 million (-10) and the payment for the settlement with the European Commission of SEK - 30 million.

Financial position

Cash and cash equivalents at 31 March 2015 amounted to SEK 94 million (SEK 97 million at 31 December 2014). The Group had unutilised credit facilities of SEK 61 million on the same date. Total available cash and cash equivalents thus amounted to SEK 155 million (158 million at 31 December 2014). Consolidated equity at the end of March 2015 was SEK 345 million (SEK 377 million at 31 December 2014). Translation of the net asset value of foreign subsidiaries to Swedish krona and changes in the fair value of pension debt and derivative instruments decreased consolidated equity by SEK 11 million. The interest-bearing net loan debt increased during the period by SEK 10 million to SEK 800 million (SEK 790 million at 31 December 2014). The revaluation of the pension debt according to IAS 19 increased the Group's net loan debt by SEK 15 million.

Employees

The average number of employees during the period was 1,844 (1,921). The Group had 1,840 (1,905) employees at the end of March 2015. Bong is intensively working on improving productivity and adjusting staff to meet current demand and the reduction is the result of the implemented restructuring measures. Many employees are currently under notice period. When implemented measures are fully in place Bong will have around 1,600 employees.

Parent Company

The Parent Company's business extends to management of operating subsidiaries and certain Group management functions. Sales were SEK 0.2 million (0.7) and earnings before tax for the period were SEK 0.6 million (-2.5).

Events after the end of the period

Bongs Russian subsidiary, Postac LLC, has increased its share capital by 100 per cent through a new share issue to Mr. Mikhail Lokotkov, a very successful entrepreneur in the printing industry in Russia. This will enable Postac LLC to speed up its growth in Russia and improve profitability despite challenging market conditions. Bong will consolidate Postac LLC in the group accounts with a 50 per cent minority interest.

Risks and opportunities

Business risks for the Bong Group are primarily related to market development and various types of financial risks. For further information, please refer to Bong's annual report and website bong.com.

Accounting policies

This interim report has been prepared in accordance with IAS 34, Interim Financial Reporting, and the Swedish Annual Accounts Act. Application was consistent with the accounting principles outlined in the 2014 annual report and the interim report should be read along with those principles. Please refer to Bong's 2014 annual report for a specification of the new amendments, interpretations and standards that took effect 1 January 2015.
